

Nom _____

Arrêtons le désastre!

You are vacationing with your family in the south of France and decide to go camping for a couple of days. When you arrive at the campground you pick up a few brochures. One of them tells you what to do in case you spot a fire. Inside the brochure there is a self-test included so you can quiz yourself on what to do.

1. These instructions on reporting forest fires refer to which 3 regions in France?

Alpes côte J'Azur

2. If you are reporting a fire from a cell phone, which number should you dial? ~~112~~ 112

3. If you are reporting a fire from a payphone or landline, which number should you call? 18

4. Here in the US, what is the emergency number that we call? 911

5. Do Americans have a different emergency number to call if we are using a cell phone? No

6. When calling one of these emergency numbers, what personal information do you need to give them about yourself according to the brochure(2 things)?

a) Your Identity (name) b) Your number

7. You will need to tell the operator where the ~~fire~~ problem is located and what is wrong.

THINK

Thinking about going camping anywhere in the world, what other kinds of issues do you think campers should be aware of and/or what kinds of safety information should they be given? Explain below.

Get out right away and if
you catch on fire you stop drop
and roll
